Education

MIT Art, Design and Technology University, Pune

Bachelor of Technology in Computer Science and Engineering **CGPA - 7.77**

Expected May 2027

Pune, Maharashtra, India

Glory English Medium School

CBSE

May 2022

Pune, Maharashtra, India

Prodigy Public School

CBSE

May 2020

Pune, Maharashtra, India

Relevant Coursework

- Data Structures
- Database Management
- Computer Networks
- Processor Architecture
- Software Engineering
- Prompt Engineering
- Operating System
- Computational Thinking

Experience

Web Development Intern

June 2025

Erfinden Technologies Pvt. Ltd.

Remote

- Led the development of a responsive Ayurveda healthcare website, coordinating a cross-functional team to deliver a user-centric digital platform.
- Designed and developed front-end and back-end functionalities using modern web technologies, optimizing website performance, responsiveness, and seamless user experience.

Technical Skills

Languages: JavaScript, Java, Python, SQL, HTML, CSS

Frameworks and Libraries: ReactJS, NodeJS, ExpressJS, TailwindCSS, Sequelize, NLP

Databases: MongoDB, MySQL, PostgreSQL

Other Technologies: Firebase, Git & GitHub, Postman, Canva

Projects

AI Voice Assistant | 🐍 Python, SpeechRecognition, NLP, ReactJS, TailwindCSS

March 2024

- Developed an AI-powered voice assistant capable of processing real-time voice commands using speech recognition.
- Integrated Speech Recognition and Text-to-Speech (TTS) modules to enable voice-based interaction and command execution.
- Implemented features including web search, weather updates, reminders, application control, and system automation to improve user productivity.
- Designed and integrated RESTful APIs for seamless communication between frontend and backend, ensuring efficient data exchange and optimized response time.

Smart Retail Connect | 🐍 MongoDB, ExpressJS, ReactJS, NodeJS, JWT, Vite, TailwindCSS

November 2025

- Engineered a digital platform connecting customers with local kirana shops, reducing search time.
- Implemented role-based authentication supporting multiple user roles (customers, shopkeepers, delivery partners) using secure login mechanisms.
- Enabled real-time product availability and price comparison, improving purchase efficiency.
- Digitized shopkeeper operations, increasing sales opportunities.

Sales And Business Analytics Dashboard | 🐍 Power BI, DAX, Power Query, Excel, Data Visualization

March 2026

- Developed interactive Power BI dashboards to visualize sales performance, customer behavior, and regional business metrics, enabling data-driven decision-making.
- Created dynamic reports with charts, KPIs, slicers, filters, and drill-through functionality to support real-time data analysis and business insights.
- Analyzed large datasets to identify trends, patterns, and key performance indicators (KPIs), providing actionable insights for business and operational improvement.

Achievements

- * Cleared JEE Mains.
- * Solved over **100+** Data Structures and Algorithms (DSA) problems across various platforms.
- * Participated in multiple academic and technical projects involving data analysis, web development
